The York County Fall Livestock Show Committee requires that all **riders** wear protective headgear that meets or surpasses current applicable ASTM (American Society for Testing and Materials/SEI (Safety Equipment Institute) standards while **riding** in all York County Fall Livestock Shows. The headgear must be properly fitted, properly worn on the top of the head, and worn with the strap or harness securely fastened. The term "riding" as used in this policy refers to the mounting, riding or driving of a horse or pony in any York County Fall Livestock Show Committee event or activity. The term "rider" refers to a person engaged in riding. It is the responsibility of the rider, and the parent or guardian of the rider, to confirm that the headgear worn by the rider complies with the safety standards set forth above; is properly fitted, fastened and work; and is in sufficiently good condition that it would protect the rider in the event of an accident. The York County Fall Livestock Show Committee, officials, judges, and volunteers associated with the York County Fall Livestock Show are not responsible for providing headgear and are not responsible for checking headgear worn by riders in order to comply with this rule.

Any rider found to be riding in violation of this policy by York County Fall Livestock Show Committee members or volunteers will be immediately prohibited from further riding and shall be barred or disqualified from the event or activity in which the rider is engaged at the time of the violation.

The York County Fall Livestock Show Committee makes no representation or warranty, expressed or implied, concerning the headgear worn by any rider. In particular, the York County Fall Livestock Show Committee makes no representation or warranty concerning the safety performance of any headgear worn by any rider. The York County Fall Livestock Show Committee cautions riders and their parents and legal guardians that death or serious injury may occur despite wearing safety headgear as all equestrian sports involve inherent dangerous risk. No headgear can protect against all possible injuries.
